## COLLEGES AND UNIVERSITIES

The mission of Asbury University, as a Christian Liberal Arts University in the Wesleyan-Holiness tradition, is to equip men and women, through a commitment to academic excellence and spiritual vitality, for a lifetime of learning, leadership and service to the professions, society, the family and the Church, thereby preparing them to engage their cultures and advance the cause of Christ around the world.

Berea College remains firmly rooted in its historic purpose "to promote the cause of Christ." Adherence to the College's scriptural foundation, "God has made of one blood all peoples of the earth," shapes the College's culture and programs so that students and staff alike can work toward both personal goals and a vision of a world shaped by Christian values, such as the power of love over hate, human dignity and equality, and peace with justice. This environment frees persons to be active learners, workers, and servers as members of the academic community and as citizens of the world. The Berea experience nurtures intellectual, physical, aesthetic, emotional, and spiritual potentials and with those the power to make meaningful commitments and translate them into action.

Campbellsville University is a comprehensive, Christian institution that offers undergraduate and graduate programs. The university seeks to prepare students to enrich their own lives through life-long learning, to contribute to their respective disciplines through continued scholarship, and to improve society as Christian servant leaders.

Eastern Kentucky University is a regional, coeducational, public institution of higher education offering general and liberal arts programs, pre-professional and professional training in education and various other fields at both the undergraduate and graduate levels. Eastern Kentucky University seeks to provide intellectual and cultural opportunities that will develop habits of scholarship and intellectual curiosity, provide a deep understanding of American democracy and the citizen's role in maintaining its strength and vitality, impart an understanding of humans and their aspirations, enable effective and efficient communication, and prepare productive and responsible citizens.

The mission of Lindsey Wilson College is to serve the educational needs of students by providing a living-learning environment within an atmosphere of active caring and Christian concerns where every student, every day, learns and grows. Lindsey offers a variety of scholarship programs.

Somerset Community College, a member of the Kentucky Community and Technical College System, is a public two-year degree granting institution serving the south-central region of Kentucky. The College offers students quality, affordable, and accessible educational experiences and associated services through campus-based and distance learning instruction to promote intellectual curiosity and lifelong learning and to encourage aesthetic awareness and social responsibility.
