WHAT'S NEW?

- Optional designations for:
 - Veteran
 - Organ donor
- New visible and invisible security features to deter counterfeiters and reduce fraud:
 - Hologram with single color UV and ghost image
 - Improved card lamination to increase durability and expose tampering
 - Bank-note level fine line printing
 - IDMarc™ imperceptible digital watermarks to improve card authentication
- Additional security features are known only to law enforcement and public officials to aid them in determining whether or not the card is authentic at points of inspection.

WHAT ELSE IS NEW?

We're updating our computers, cameras and staff workstations to better serve you. New hardware and system updates will ensure better, more reliable service to you – keeping the lines shorter, and reducing any potential service downtime.

Kentucky is one of 32 US states to use a facial image comparison solution to find potential identity fraud where an applicant already has a driver's license under another name. Multiple identity fraud costs the American people billions of dollars each year and it is our goal to help ensure "One Person, One Identity."

WHEN CAN I HAVE IT?

The new driver's licenses will be rolled out in stages throughout the summer. There is no need to renew until your old license expires.

- McLean County: Aug. 7
- Bourbon County: Aug. 9
- Anderson County: Aug. 14
- Woodford County: Aug.16
- Jefferson County, Dixie Highway Office: Aug. 21
- Warren County: Aug. 21
